If you ever need to service your Citroen C3, C4, or any other model for that matter, you'll want to make sure that you have all the service documentation for the vehicle handy. Thankfully, there's an easy way to back up your key documents when they're in need of replacement. Find out how in this blog post! [How To Backup Your Citroen Service Documentation Backup Keygen](#) If you've ever tried replacing your key fob with a new one because it stopped working after too many head-butts with objects like trees and lampposts, then locating your lost manual is essential. It's also imperative that you do this as soon as possible, as the replacement key fob's warranty will fail once it's been damaged. However, if you've already got a new key fob, then the only option is an aftermarket one. However, it'd be a bear to install because you'll have to open up your car. Since there isn't a genuine replacement for a Citroen C4 key fob, the only choice is to make or buy an aftermarket one. Unfortunately, they can be quite expensive and tricky to install too! So it's best recommended that you make sure all your key documents are backed up before attempting to replace them with an aftermarket device.

1. [How to Back Up Your Citroen Service Documentation](#) First things first, you'll need to take your service documentation out of the glove compartment. The one that's underneath the owner's manual.
2. [Open up The Owner's Manual](#) Next, open up your owner's manual. This will be in your glove compartment, so you'll have to use it as a guide to find your Citroen service documentation backup keygen in it.
3. [Locate Your Citroen Service Documentation Backup Keygen](#) When you flick through the pages, you'll see a bookmark sticking out. You can pull it out to get to your Citroen service documentation backup keygen.
4. [Replace Your Citroen Service Documentation Backup Keygen](#) Once you've found the bookmark, simply replace it with your new one! Then replace everything back into its rightful place before shutting it all up again. There should be no need to spend any money on an aftermarket device for this purpose after all! The best way is to use the service documentation for your car as a replacement for your key documents if ever something happens to them.
